Welcome to Syracuse, New York!

Located in the center of New York State, Syracuse is currently home to roughly 421,000 people in the metro area. This area is well known for its beautiful landscapes, lakes, people, food and entertainment.

Originally home to native Iroquois people, French missionaries came to the area as the first Europeans and worked to settle the land; however many counties, roads, and places still carry names honorary to the indigenous people who were here first. Learn more about the Haudenosaunee people of the Onondaga Nation, here: https://www.onondaganation.org/aboutus/

Syracuse is nicknamed the “Salt City” due to the city’s natural salt springs. The salt was harvested by evaporation and boiling to produce coarse salt that served as one of the few contributors of salt for the entire country for most of the 19th century! Syracuse does have a small Salt Museum for visitors interested in learning more:

https://onondagacountyparks.com/parks/onondaga-lake-park/salt-museum/#hours

While you’re here, if it’s your thing, check out Oakwood Cemetery. Founded in 1848, Oakwood was designed believing that people should be resting in beautiful, park-like landscapes with sculptural tombs and gravestones, ornamental and rare trees and shrubs, and that their surroundings would place ease on the bereaved. The oldest part of the cemetery offers incredibly unique and massive tombs, graves, and family plots. Drive or walk through the 282 acres! Local Syracuse University and SUNY ESF students enjoy spending time here between classes during summer with friends.

For more information on the history of Syracuse, New York, please visit the Onondaga Historical Association’s website or in person; they love visitors and also have a gift shop!

The Erie Canal was a canal system of hand-dug waterways designed to move goods and materials across the state; making travel by stagecoach almost obsolete in design, comparatively. The significance was that during that time, this was the MOST efficient way to move from one place to another! Built in the early 1800's, the canal stretched from Albany to Buffalo, New York making it the longest artificial waterway in the country, as well as designating the state as a leader in economic strength. It drove the NYC seaport into the principal port for the region and encouraged settlement along its route, aiding in part of the inspiration for the state’s nickname, the Empire State.

The canal has sections throughout the region where the trail way has been preserved and is regarded as a nice place to go for a stroll. There is a replica store that was built and serves as a museum currently along the path in Camillus, NY. [http://www.eriecanalcamillus.com/museum.htm](http://www.eriecanalcamillus.com/museum.htm) Accessible by car or footpath from Warners Rd., this path in particular also features parts of the old aqueduct; a bridge for water to go over rough landscape and beautiful Sycamore trees along the canal side.

**Erie Canal Museum** - 318 Erie Blvd E, Syracuse, NY 13202
Approx. 9 minutes from the Ramada by car.
This museum houses the last remaining weigh-lock building left in America. A weigh-lock is how barges were weighed to determine the amount to charge based on weight, quantity and type of goods being transported. Why is it in the city you ask? The canal used to run right through downtown Syracuse but has since been filled in and renamed Erie Boulevard.

Syracuse is a wonderful city to visit and explore! Drive times to most places are 15 minutes or less within the city limits. If you’re really adventurous, heading an hour out of town can also take you to some amazing casinos, vineyards, and more!

To help you navigate:

- Interstate 90 (NYS Thruway - has tolls) runs east and west of the state. This route is key if you are looking to visit one of Syracuse’s casinos or wineries.

- Interstate 81 runs north and south of the state. This route will take you to and from the ADGA National Convention location if you are visiting Syracuse from the south or north of the state. Key for local travel and intersects the thruway (I-90 mentioned above.)

- Interstate 690 runs east and west of Syracuse and is a staple with Interstate 81 for local travel in and around Syracuse.

If you are visiting downtown Syracuse, keep in mind parking is metered (you have to pay) during daily business hours, but is FREE daily before 9am and after 6pm, Monday - Saturday. Sundays are free parking all day.

The National Convention is located in an easy access area where you can get anywhere fairly quickly, however, it is not in an area where walking to businesses is easy due to heavy traffic. Please be careful crossing the street!

Google is a helpful tool to help you navigate, as well as downloading the UBER transportation app for your cell phone to taxi around if you don’t have a rental or personal vehicle with you.

**THINGS TO DO**

**Green Lakes State Park** - 7900 Green Lakes Road, Fayetteville, NY 13066
Approx. 21 minutes from the Ramada by car.
This state park features the common amenities provided by most parks, however, this park is truly unique due to its two glacial, meromictic lakes. There are only 36 known meromictic lakes in the world, NY is home to SIX of those lakes! Meromictic means there is no turnover and the layers don’t mix in the lake. This causes the lake to remain a brilliant turquoise color year round! Swimming is not allowed outside of the designated area in season, but walking paths around the lakes will allow you to enjoy the natural reef systems and clear water.

**Chittenango Falls State Park** - 2300 Rathbun Rd., Cazenovia, NY 13035
Approx. 36 minutes from the Ramada by car.
This is one of the nicest waterfalls locally where you have a view from the top as well as the bottom of the falls via a hiking trail. The trail has a lot of stairs and is quite the workout but it’s worth the exercise if you’re able! This 167 foot waterfall was sculpted, like most of our area, by glaciers over 400 million year old bedrock! Incredible!

**Syracuse University** - Syracuse
Approx. 10 minutes from the Ramada by car.
Take a stroll or driving tour of Syracuse University! The campus is filled with historic buildings made of sandstone, brick, and limestone and showcases magnificent feats of architecture! Home of the Syracuse Carrier Dome.

**The Rosamond Gifford Zoo** - 1 Conservation Pl, Syracuse, NY 13204
Approx. 12 minutes from the Ramada by car.
A great zoo for its small size, the Rosamond Gifford Zoo has a variety of animals to see including elephants, red pandas, and snow leopards. Built on the beautiful Burnet Park grounds, feel free to enjoy the park on the backside of the zoo as well for great views!

**Downtown Syracuse**
Approx. 10 minutes from the Ramada by car.
There are so many great shops like Wildflowers Armory with local CNY vendors for gifts, dozens of restaurants, and so many sights to see! Syracuse architecture is changing as we build new buildings; take advantage of the opportunity to visit the city and just look around at the older-styled architecture filled with limestone, marble, and granite buildings and facades. It’s also important to look UP! Buildings are adorned with gargoyles, fancy trim work, old signage, and more! There are so many places to explore! Photo courtesy of Photographer, Sterling Oddo

You can also rent electric bikes and scooters to help navigate the area and move a little faster than a walk through [Veo Syracuse](https://www.veoride.com/syracuse/). Download their app for more information on where to find the scooters and bikes around town!

**The creekwalk** is a great downtown trail to walk on a nice, bright day. Start downtown and work your way towards Franklin Square where the roads are brick-laid and you will find an exquisite center park and fountain. You can find hidden gems of coffee shops and store fronts hidden in Franklin Square. Follow the trail here: [http://www.syrgov.net/Creekwalk.aspx](http://www.syrgov.net/Creekwalk.aspx)

Owera Vineyards - 5276 East Lake Road, Cazenovia, New York - CENTRAL NY REGION
Approx. 32 minutes from the Ramada by car via I-90 with tolls.
Our vineyard is a combination of Minnesota cold hardy varietals, Frontenac Gris (think Riesling with pineapple overtones), LaCrescent (think apricot and citrus) and Frontenac (deep garnet color and blackberry flavor). We chose to plant these specific grapes in the summer of 2008 and in 2016 for one very important reason. Unlike our good friends in the Finger Lakes, we do not have the luxury of having deep lakes and the prevailing southeast wind of Lake Ontario to create an insulating microclimate. Cazenovia sits approximately 1,450 feet above sea level and the lake is very shallow (only 65 feet) in comparison to other nearby lakes. In other words, we planted grapes that are rated down to -40F to insulate ourselves from the cold evenings and frost.

Montezuma Winery - 2981 US-20, Seneca Falls, NY 13148 - FINGER LAKE REGION
Approx. 42 minutes from the Ramada by car via I-90 with tolls.
Although we do produce high-quality grape wines, the focus of our product line is fruit and honey wines. Montezuma Winery, Martin's Honey Farm and Meadery and Hidden Marsh Distillery have been awarded numerous awards including Gold, Double Gold, Best of Class, Best Fruit wine, and Commercial Mead Champion. Our wine list offers a range from dry to sweet and includes Riesling, Blueberry, Rhubarb and our most popular, Cranberry Bog.

Dr. Konstantin Frank Winery - 9749 Middle Rd, Hammondsport, NY 14840 - FINGER LAKE REGION
Approx. 1 hour & 35 minutes from the Ramada by car via I-90 with tolls.
Dr. Konstantin Frank fell in love with a special property on Keuka Lake for its exceptional characteristics – poor soils and steep slopes. With decades of knowledge and experience, he successfully planted the first European grape varieties on our home vineyard in 1958. Many of these Riesling, Chardonnay, and Pinot Noir vines are still in production to this day and they represent some of the oldest vines in America. Our philosophy is to maintain the legacy built by our founder by continuously producing the highest quality wines from our vinifera vines. Varieties such as Riesling, Chardonnay, Pinot Noir, and most recently, Gruner Veltliner are prized and beloved at our winery.

Wagner Winery - New York 414, Lodi, NY - FINGER LAKE REGION
Approx. 1 hour & 15 minutes from the Ramada by car via I-90 with tolls.
We cultivate 20 grape varieties on 250 acres. The winery’s prime location on the eastern shore of Seneca Lake contributes to the superior quality of the grapes. The unique combination of deep water (parts of Seneca Lake are over 600 feet deep) and sloping hillside provides a natural temperature moderator, protecting the vines against extreme temperature changes. Grape varieties under cultivation include: Riesling, Chardonnay, Gewürztraminer, Pinot Noir, Merlot, Cabernet Franc, Cabernet Sauvignon, Seyval Blanc, Melody, Vignoles, Vidal, Cayuga White, DeChaunac, Delaware and Niagara.
