American Dairy Goat Association

2022

Welcome to Syracuse!! The New York State Dairy Goat Breeders' Association welcomes you to the 117th annual meeting of the American Dairy Goat Association. We are excited to host you here in New York and District II (after a little covid hiccup in 2020 when we got postponed to 2022!) Our committee has been working very hard to make this a very enjoyable and educational conference. A very special thank you to Dr. tatiana Stanton from Cornell University for her tremendous efforts in making our programming one of the very best. Thanks also to Roslin Newton for her assistance and my never ending questions I asked of her. Thanks to all the committee members for all doing their part to make this a successful event. And lastly, a big thank you to Kate Berry and the staff at the Ramada by Wyndham for their extra efforts in making this a pleasurable conference.

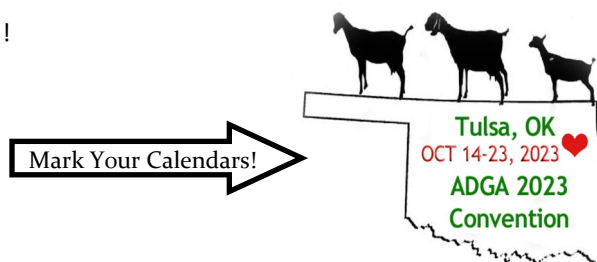

I urge you to take advantage of as many of the amazing seminars and programs that we have scheduled. The dinner and evening events will be exciting. And if you have extra time I urge you to take advantage of and explore many of the local sights, businesses and eateries. Danielle Bagozzi has put together a list of her favorite places in the area that you might enjoy. Just go to the convention website "convention.adga.org" then click on the "Visitors" tab and the then "Things To Do" tab.

As you may have noticed our theme this year is associated with the Erie Canal.....an important historical venue for this area. A historic canal that runs east and west in New York state from the Hudson River in the east to Buffalo and Lake Erie in the west. Completed in 1825, mostly by Irish immigrants, the Erie canal was the first navigable waterway connecting the Atlantic Ocean to the great Lakes and on towards the westward expansion of the country, vastly reducing the costs and labor of transporting goods and people across the northeastern part of the new country. I invite you to explore the historic parts of the canal that are still in existence today.

I sincerely hope you have a wonderful time while here in Syracuse!!

Pete Snyder

NYS DGBA President

ADGA 2022 Annual Convention Committee:

Local Host Coordinator Pete Snyder

National Coordinator Roslin Newton & Steve Feaster-Etychison

Art Contest Contact Jennifer Mellett

Programming Dr. tatiana Stanton

Hospitality Lorene Toth

We want to recognize Christina Strickland for all of her creative, hard work and dedication to the youth of ADGA. She was a wonderful teacher, a source of so much knowledge and worked to make the Youth Program successful, engaging and educational every year she was involved. She is deeply missed.

ADGA Board of Directors

1994 - Mary Ellen and Ray
Horton Jr.

1999 - Steven Schack and
Jennifer Bice

2000 - Dr. George Wiggans

2004 - Sheila Nixon

2006 - Harvey Considine

2010 - Vivian Proctor

2012 - Karen Senn

2013 - Stephen Considine

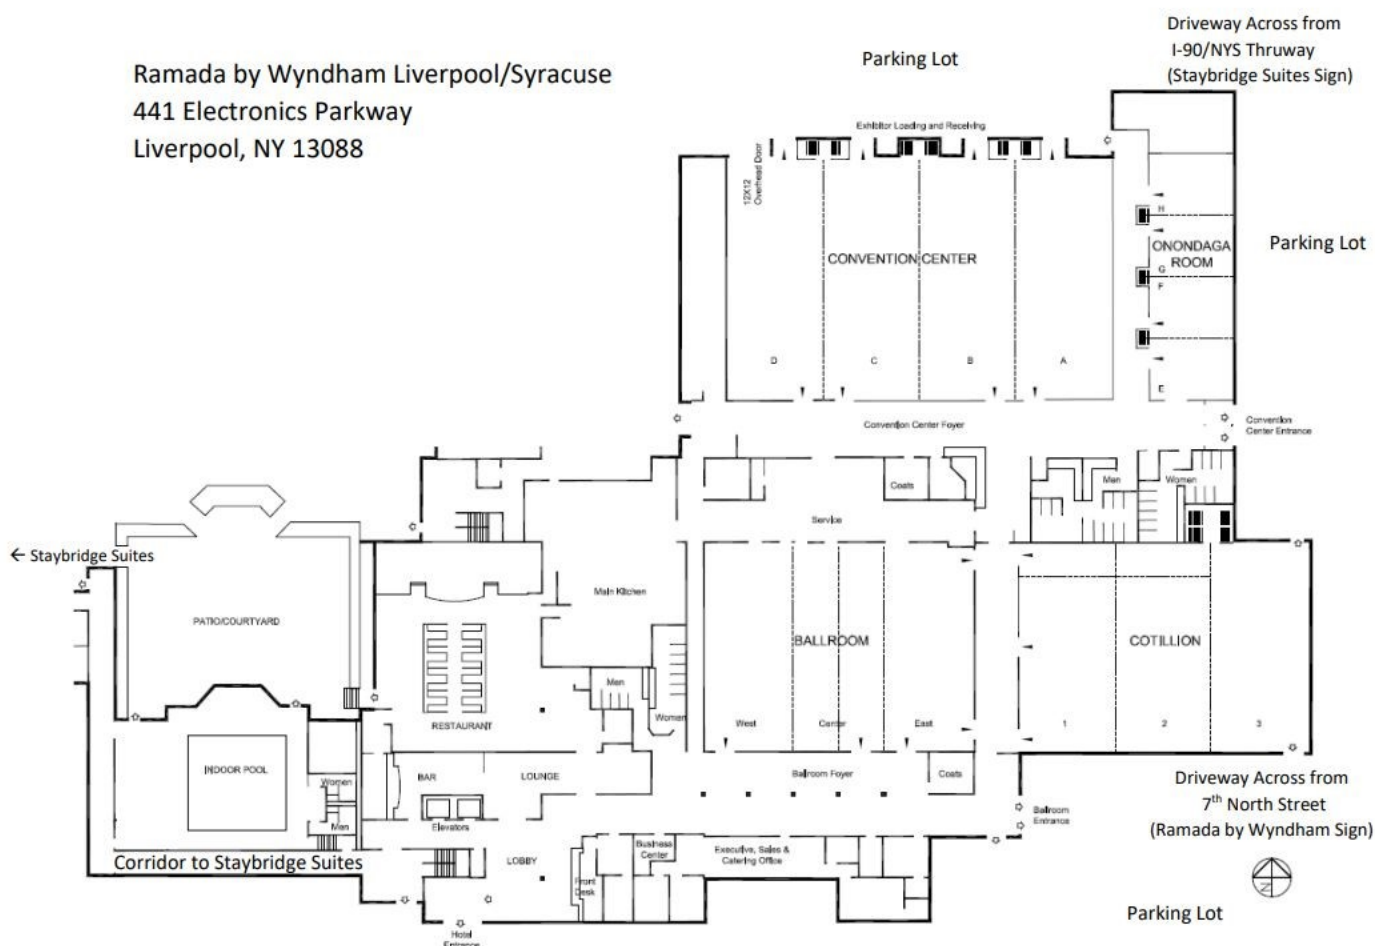

2015 - Jan Carlson

2016 - John White

2018 - Linda Campbell

2021 - Daniel Considine

Convention Hotel Layout

ADGA –Celebrating 118 years serving the Dairy Goat industry

The American Dairy Goat Association was organized in 1904 to collect, record, and preserve the pedigrees of dairy goats, provide genetic, management, and related services to of the highest possible quality to dairy goat breeders, while maintaining the credibility of information, the integrity of the registry, and contributing to a public perception and political climate for the dairy goat industry that will provide optimum economic opportunities for Association members.

for only \$10

Pat Mead

An entertaining and humorous book by local author Gretchen Sepik about life on the Erie Canal in the 1800's.

A limited number of these books will be available at the convention for \$10.

Sal is a fictitious character based, in part, on Old Black Nell who was a cook on the canal in the year 1840. She speaks in an Irish brogue and weaves Irish Folk Tales into facts about the Erie Canal. You will laugh as you learn about one of the engineering wonders of the world. Gretchen has adapted the original script for this program into a children's book entitled *Erie Canal Sal*.
